# SETH MARINA

*QA Automation Engineer | Playwright Specialist | Full-Stack Dev Experience*

## SKILLS

---

Playwright, Test Automation, End-to-End Testing, JavaScript, TypeScript, CI/CD (GitHub Actions), REST APIs, Regression Testing, Test Frameworks, Postman, Agile, SDLC, ReactJS, Redux, Node.js, Express, MongoDB, PostgreSQL, WebSockets, Git, JWT, Axios, Docker, AWS (basic deployment), DevOps Practices, TailwindCSS

## EMPLOYMENT HISTORY

---

### QA AUTOMATION ENGINEER

**Jan 2025 - Mar 2025**

#### *Auto Insurance Industry*

- Developed comprehensive E2E data driven tests for insurance claims platform using Playwright.
- Implemented CI with GitHub Actions for automated test execution on pull requests.
- Designed React front-end to simulate real-world dashboard interactions.
- Enhanced platform reliability through rigorous API and form validation.
- Facilitated seamless integration and testing processes, boosting team efficiency.
- Created reusable test utilities with Playwright for login, dashboard, and form validation flows
- Validated 120+ insurance claim scenarios with parameterized Playwright tests

### SOFTWARE ENGINEER

**Jun 2024 - Jan 2025**

#### *Upright Education*

- Developed a real-time chat app using ReactJS and Node.js, enhancing user engagement and interaction.
- Implemented secure authentication with JWT, ensuring user data protection and trust.
- Integrated MongoDB for message persistence, improving data reliability and user experience.
- Utilized Git for version control, maintaining project integrity and facilitating team collaboration.

### FULL-STACK DEVELOPER

**Dec 2024 - Jan 2025**

#### *Old Dominion University*

- Designed responsive web components with ReactJS, enhancing user experience and satisfaction.
- Implemented secure JWT authentication, ensuring data integrity and user trust.
- Utilized Axios and Postman for seamless API communication and testing, improving functionality.
- Collaborated with stakeholders to align project goals, achieving client satisfaction.
- Managed code quality with Git, maintaining a reliable version history.

### FRONT-END DEVELOPER

**Feb 2025 - Mar 2025**

#### *Hernandez Construction*

- Designed a website boosting online presence, increasing site traffic by 128%
- Enhanced user experience with Framer Motion animations
- Ensured mobile accessibility with responsive ReactJS designs
- Developed interactive UI components, improving user engagement
- Integrated API services, reducing load times for seamless experience

## INSURANCE SPECIALIST

Jun 2021 - Present

### *Progressive/Liberty Mutual*

- Manage client datasets, ensuring accuracy and compliance, enhancing data integrity.
- Streamline claims processes, reducing turnaround times, boosting client satisfaction.

## EDUCATION

---

2025

*Old Dominion University*
